

Cleaning Your Grow

Cleaning is one of the most important steps you take to eliminate pathogens in your garden. Athena® Reset and Athena® Perafoam were developed to give you a clean start going into every run. Use the Athena® Clean Line in between cycles to clean, disinfect, and sanitize tables, floors, trellis, irrigation lines; any hard surface you or your plants come in contact with. Follow the procedures below in between runs to ensure you start clean every time!

After harvesting a room, ensure all debris is cleared out of the room. The room can then be heat treated overnight, bringing the internal temperature to 140°F (60°C), if possible.

RESET (non-foaming spray application)

- 1 **Add** Add Athena® Reset into a sprayer at a rate of 1 fl oz per gal of water.
- 2 **Spray** Spray all hard surfaces to sanitize and disinfect.
- 3 **Hold** Does not need to be rinsed away.

Other Foamer Systems

- 1 **Add** Add Athena® Perafoam at a rate of 1 fl oz per gal of water.
- 2 **Add** Add Athena® Reset at a rate of 1 fl oz per gal of water.
- 3 **Mix** Mix the solution thoroughly.
- 4 **Adjust** Use manufacturer's recommendations to adjust foamer settings for the desired foam characteristics.
